

As an active member of NARI for many years, Emerald Contractors is pleased to let its clients know that *The 2010 Florida West Coast Remodeling Awards* will be presented at the *NARI Evening of Excellence* at Belleair Country Club on Friday, February 19th 2010. The Emerald team, which has been a recipient of these awards in the past, will be once again attending this prestigious event.

Each year contractors across the state of Florida are invited to compete for the prestigious Florida West Coast Remodeling Awards (FWCRA) in recognition of their achievements. Companies – from one-person shops to the largest remodeling firms - compete in over 25 categories from small bathroom remodels to large whole house renovations. A FWCRA binder is submitted for each project to be considered which contains before and after floor plans and photography and a brief project description detailing all aspects of the job. Background is provided on the client's needs and wants and how they were solved. Special problems that were encountered or features/designs unique to the project are explained.

An impartial panel of judges from within the industry and associated fields selects winners. The evaluation process is done without revealing company names or project locations. All entries are judged on functionality, problem solving, aesthetics, craftsmanship, innovation, degree of difficulty and entry presentation. All winners are recognized and honored at the annual *Florida West Coast Remodeling Awards Evening of Excellence*.
